## Invitation to take part in a survey on *Physique Assessment Practices in High Performance Sport*

### What is the project about?

The aim of the project is to identify current athlete testing practices related to physique assessment in high performance sport and collect opinions on issues relating to athlete physique, including physique assessment. This research may help identify 'best practice' for assessment and data capture.

### Who's doing the research?

Researchers from the Curtin School of Population Health and the School of Allied Health at Curtin University along with researchers from the Australian Institute of Sport, University of the Sunshine Coast, Auckland University of Technology, High Performance Sport New Zealand, and Deakin University.

### Who can take part?

To be eligible you must be undertaking, or previously undertaken physique assessment in Tier 2 and above level athletes (Tier 2: Trained/Developmental; Tier 3: Highly Trained/National Level; Tier 4: Elite/International Level; and Tier 5: World Class)

Contact: Research team leader Prof. Deborah Kerr at +61 9266 4122 or [d.kerr@curtin.edu.au](mailto:d.kerr@curtin.edu.au)

Ethics: Curtin University Human Research Ethics Committee (HREC) has approved this study (HRE2022-0418).
